DETAILED ACTION

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 8/23/04 was considered and made of record by the examiner. The Song et al. reference was not considered because the copy provided had text cut off on the right side margin.

Claim Objections

Claims 1-11 are objected to because of the following informalities: the word "complimentary" on the last line of claim 1 should be corrected to say --complementary--. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter that was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Specifically, the specification fails to disclose in what way the upstream and downstream masks are complementary. The term "complementary," as used in claim 1, does not have a well-known definition in

the art and could be interpreted in a wide variety of ways. For example, complementary masks could simply be non-overlapping or alternatively could be power complementary.
